Subject: Rough Estimate of Cost - Falcon Removal Action

The following is based upon the information that I am aware of and is a WAG:

Item	Oily Water	Sludge	Total Volume	Cost
Tank 26	26,000 bbl	11,375 bbl	37,375 bbl	\$ 1,967,875
Tank 12	6,246 bbl		6,246 bbl	\$ 131,166
Tank 30	3,032 bbl	3,032 bbl	6,064 bbl	\$ 442,672
Tank 7		861 bbl	861 bbl	\$ 107,625
Asbestos Abatement				\$ 100,000
Labor/Equipment				\$ 2,000,000
Contingency (10%)				\$ 500,000
TOTAL				\$5,249,338

:TR1 should be providing us with a certified cost estimate for us to review.

Thanks
